

I am writing because I am concerned that the LPFM broadcast service may interfere with my K-Love radio station. It is the only Christian music station we receive and even gets stamped on by other stations in the area from time to time. K-Love is very important to me and the community. I have been supporting it for over 4 years and never feel my money could be better spent. Please don't allow the expansion of LPFM to rob me of this wonderful station.
